SKILLS

Programming C/C++, Python, JavaScript, HTML/CSS

EDUCATION

University of California, Davis

SEPT 2018 – JUN 2022

B.S. Computer Science and Engineering

Regents Scholar, University Honors Program. GPA: 3.76

PROJECTS

Spotify Playlist Automation | Python, Spotify Web API

- A service that creates and fills playlists with a given artist's entire released works.
- Created as an extension of the "This is..." feature offered through Spotify.

Random Piano | JavaScript, HTML

- A web app that plays music and randomized animations when the user types on the keyboard, utilizing event-handling and DOM manipulation.

Battleship | C++

- A multiplayer Battleship game with multiple AI options allowing users to customize the dimensions of the playing board and ships, with error-checking.

WORK EXPERIENCE

Orientation Lead Supervisor | *University of California, Davis*

JUN 2020 – PRESENT

- Plan, organize, and implement the Office of the University Registrar's participation in Summer Orientation for new students.
